# FIT NESS

COMPOSITION: 92% POLYAMIDE // 8% ELASTANE

## F and M Rashguards (Thermal T-Shirts):

Made of polyamide or polyester, offers UV protection factor 50.

Technological fabric that features high flexibility and resistance, providing maximum comfort and breathability, to give athletes more performance.

Technological material made with polyamide or polyester microfibers that accelerate the absorption of perspiration and transport it to the outer layer of the product, allowing fast evaporation.

## Dry Fit Polyamide T-shirts

The Dry Fit T-shirt is the best choice for those who go to the gym or practice physical exercises.

Made with Dry Technology, which helps sweat evaporation out of the fabric, our shirt will keep your body temperature regulated, even in hot weather.

This piece has a great elasticity, soft, comfortable and wears well. In addition, our fabric has UV Protection 50+, a protection technology against ultraviolet sun rays (UV and UVB) that will defend your skin with a factor above 50 (SPF 50+).

Very nice fabric on the body, comfortable and practical. Not getting hot or tight!

COMPOSITION: 100% POLYAMIDE

COMPOSITION: 83% POLYAMIDE // 17% ELASTANE

## Polyamide **Wonder** Legging Pants:

High compression legging pants, fabric developed in polyamide and elastane, "wonder" of great elasticity with discreet glow, light texture and soft touch, brings detail to the high waistband that provides greater comfort during sports practice. Providing comfort and elasticity.

## Polyamide **Suplex** Legging Pants

High compression legging pants, fabric characterized by a smooth touch, greater stretchability and elasticity both in length and height. It is a guarantee of comfort at all times of use!

COMPOSITION: 84% POLYAMIDE // 16% ELASTANE

COMPOSITION: 83% POLYAMIDE // 17% ELASTANE

## Polyamide **Wonder** Legging Shorts:

Convenience and style go together in this model! To get a better performance during training, you need to be comfortable and with the design of these shorts, comfort is guaranteed! Made with excellent quality polyamide and UV50+ protection factor, this model cannot be missing from your closet!

Made of Wonder polyamide, with excellent elasticity, discreet shine, light texture and soft touch.

## Bermuda Legging Poliamida **Suplex**

Convenience and style go together in this model! To get a better performance during training, you need to be comfortable and with the design of these shorts, comfort is guaranteed! Made with excellent quality "Suplex" polyamide and UV50+ protection factor, this model can't be missing from your closet!
